

L. POPULATION AND HOUSING

IMPACTS AND MITIGATION MEASURES

<i>Issues (and Supporting Information Sources):</i>		<i>Potentially Significant Impact</i>	<i>Less Than Significant with Mitigation Incorporation</i>	<i>Less Than Significant Impact</i>	<i>No Impact</i>
XII. POPULATION AND HOUSING— Would the project:					
a)	Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b)	Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c)	Displace substantial numbers of people necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

IMPACT ASSESMENT

The proposed project does not propose new homes or businesses, or result in the displacement of any housing unites or people. Installation for the new conduit in live gas lines would occur within existing gas pipelines found primarily within public streets and would not require the extension of roads or other infrastructure. Implementation of the proposed project would neither affect existing population nor generate additional population, nor would it affect or create additional demand for new housing, directly, indirectly, or cumulatively. Therefore, no socioeconomic impacts to population and housing will result from the installation of conduit within existing gas pipelines within SCG/SDG&E's service territories.
